

Recovering Debts – Quickly & Cheaply

The current economic situation means that credit control and debt recovery should be any company's priority. Too often money is locked up in debtors for a damaging period of time. But it is easy to understand why – collecting debts can quickly turn into a time-consuming, stressful and expensive business.

Taking the Strain for You

Herrington & Carmichael LLP will take on this responsibility for you through our three-step debt recovery process. Our aim is to recover the overdue monies by the most effective, economical and tactful methods.

Our specialist team will work with you to tailor the debt recovery action to suit your business, and our personal service means that we will be on hand to provide you with regular updates.

The Three-Step Process

> Step 1

We start the recovery process by sending a solicitors' "letter before action" to the debtor. This is often enough to trigger payment. This costs £20 plus VAT.

> Step 2

If the initial letter fails to achieve payment, we will in all likelihood issue a County Court claim. It will incur a fixed charge. In all undisputed cases, the fixed costs, court fees and interest recovered will be refunded to you when the debt is recovered in full.

> Step 3

If the proceedings are defended, one of our lawyers will conduct the case on your direct instructions. Our charges depend upon the time involved and we would provide you with a costs estimate.
