Our Services

Our team has many years of experience in Corporate Governance, working with a variety of different businesses across a range of sectors. We can support you by:

- Reviewing, identifying and agreeing key legal, regulatory and operational requirements of your company from a corporate governance perspective.
- Reviewing documentation and discussion with you or your contact responsible for corporate legal matters in particular about board responsibilities for legal/regulatory/operational requirements and about delegation within the company.
- Reviewing the responses provided by you to ensure they are in line with key principles of Corporate Governance with a focus on transparency, effective information flow, roles and responsibilities, highlighting where this is not the case and providing you with short written report with recommendations as how to enhance structural effectiveness.
- Developing, preparing, and agreeing with you corporate governance frameworks and principles based on the recommendations in line with what has to be published on your website in accordance with rule 26 of the AIM rules including responsibilities of the members of the board of directors and details of any committees of the board of directors and their responsibilities.

Fees & Timescales

The hourly rates for our Corporate Governance advise are in the range between £210-300 + VAT and the timeframe depends on the complexity of the structures and amount of work to be provided. We will agree timeframes for the different stages with you.

Next Steps

- If you would like to use our services, we will send you a proposal document outlining our services in more detail, along with our fees.
- Our proposal will remain valid for 30 days from the date of issue.
