

# Corporate Governance Due Diligence

Legal Services

## About Us

Herrington Carmichael is a full-service law firm offering legal advice to UK and international businesses. We work with corporate entities of all sizes, from large PLCs through to start-up businesses.

Rated as a 'Leading Firm 2025' by the Legal 500 and listed in The Times 'Best Law Firms 2024', Herrington Carmichael has offices in London, Hampshire and Berkshire.

Legal 500 Leading Individuals & Recommended Lawyers can be found at <https://www.legal500.com>

# Our Services

Our team has many years of experience in Corporate Governance, working with a variety of different businesses across a range of sectors. For the Assessment of Corporate Governance Risk, we can support you with:

- Developing, preparing and drafting with you a questionnaire with relevant questions to review the key structure of a company from a Corporate Governance perspective.
- Going through the questions and requesting specific documentation from a the person responsible for legal corporate matters at the company.
- Reviewing key documentation and responses provided by the company to ensure it is in line with key principles of Corporate Governance with a focus on transparency, effective information flow, roles and responsibilities and flagging where this is not the case and provide you with recommendations as how to enhance structural effectiveness.

## Time Scale

---

We would anticipate being able to deliver a first draft of recommendations to you approximately 10 business days after receipt of the responses of the company and supporting documents (we would provide you with a draft questionnaire after being instructed).

## Next steps

---

- If you would like to use our services, we will send you a proposal document outlining our services in more detail, along with our fees.
- Our proposal remains valid for 30 days from the date of issue.

## Key Contacts

---
